

Dear Mr. Paul Cutler,

My name is Andre Anderson, and I am a rising junior majoring in Finance with a minor in Biological Sciences. Being selected as a Cutler Finance Scholar is a great honor. This scholarship represents a significant milestone in my journey toward making a meaningful impact in the finance sector. Thank you for this opportunity.

During my time at ASU, I have been actively involved in various clubs and organizations. Among my most notable experiences is being selected as a co-president of the Investment Banking Industry Scholars (IBIS) organization. Additionally, I serve as the vice president of the Investment Banking and Finance Club. Within the Black African Coalition, I hold two executive positions: President of the Black Business Student Association and External Vice President for African American Men at ASU. Outside of club involvement, I am also a practice player for the Sun Devil Volleyball team.

ASU has provided me with invaluable opportunities for which I am deeply grateful. This past summer, I interned at JPMorgan Chase in New York City as an investment banking summer analyst. It is through the resources provided by W.P. Carey that I received this opportunity, and I am extremely grateful for the support I continuously receive on campus. These experiences have fueled my ambition to become an investor, and I am excited to have been offered an intern position at a leading private equity firm next summer.

These opportunities would not have been possible without the unparalleled support and resources provided by ASU. Thank you for making a significant impact on my academic and professional journey. This scholarship will enable me to further immerse myself in my studies and extracurricular activities, driving me to achieve even greater heights. Once again, I cannot thank you enough for helping me continue my academic and professional journey.

Go Devils!

Sincerely,

Andre Anderson

Meet Andre Anderson

Why did you choose your major?

After starting a business in high school, I developed a deep love for the entrepreneurial spirit. This experience ignited my passion for investing and led me to choose a major in Finance. I wanted to gain the knowledge and skills necessary to support and nurture the next generation of innovative ideas, providing a strong foundation for future entrepreneurs.

Biggest academic accomplishment

My biggest academic accomplishment is receiving a scholarship to study at Arizona State University. Coming from a deeply rooted family of Sun Devils, it has always been my dream to continue that tradition. I am more excited than ever to contribute to the success of our university.
