

Dear Mr. Paul Cutler,

My name is Katrina Lee and I am a Finance major here at ASU. I sincerely thank you for the Bill and Noreen Cutler Endowed Scholarship Fund. Receiving this scholarship is a tremendous honor and I am deeply appreciative of your generosity and support towards my academic journey. This financial assistance will significantly alleviate the burden of tuition costs and allow me to focus more on my studies without worrying about financial constraints. Your belief in my potential means a great deal to me, and I am committed to striving for excellence in my academic pursuits.

I have been continuously involved with the Chinese American Student Association during my time here at ASU. This has allowed me to socialize with many students with similar backgrounds.

Through rigorous coursework, I have learned many things to prepare me for a great start to my career in Finance. I am proud to say that I have maintained a high GPA throughout my semesters. My academics have allowed me to secure two prestigious internships with Goldman Sachs and MUFG.

I look forward to making the most of this opportunity and hope to one day give back to others as you have done for me. Thank you once again for your invaluable contribution to my education.

Sincerely,

Katrina Lee

### **Meet Katrina Lee**

#### **Why did you choose your major?**

I chose finance to get a better understanding of the markets as well as have a more personal relationship with my finances. I always wanted to teach my parents how to improve their financial health to help with retirement.

#### **Biggest academic accomplishment**

I landed my dream internship with Goldman Sachs during my junior year summer. Without a doubt it was due to my academic standing and my grades in my classes.

#### **Favorite Book**

My favorite book is the Defining Decade by psychologist Dr. Meg Jay. It explains how our twenties are the most crucial moments in our lifetime and how certain choices can lead to a much more successful outcome.
